

# New House Names Proposal

## Existing site address:

Hunters Hill  
Shophouse Lane  
Farley Green  
Surrey  
GU5 9EQ

## **Introduction**

Planning permission was granted in 2017 by Guildford Borough Council for 5 new homes on the site known as Hunters Hill which previously contained only 1 dwelling. Therefore new addresses are required for the additional 4 dwellings. This document provides some history of the site and proposes new addresses which draws on that history.

## **Planning Permissions**

17/P/00843 - Replacement of existing four bedroom dwelling with a new five bedroom house.

This house has always been known as Hunters Hill and our proposal is that the replacement dwelling, which is in the same position of the site, continues to be known as Hunters Hill.

17/P/01823 - Demolition of former farm buildings and the construction of two x two bedroom houses and two x three bedroom houses.

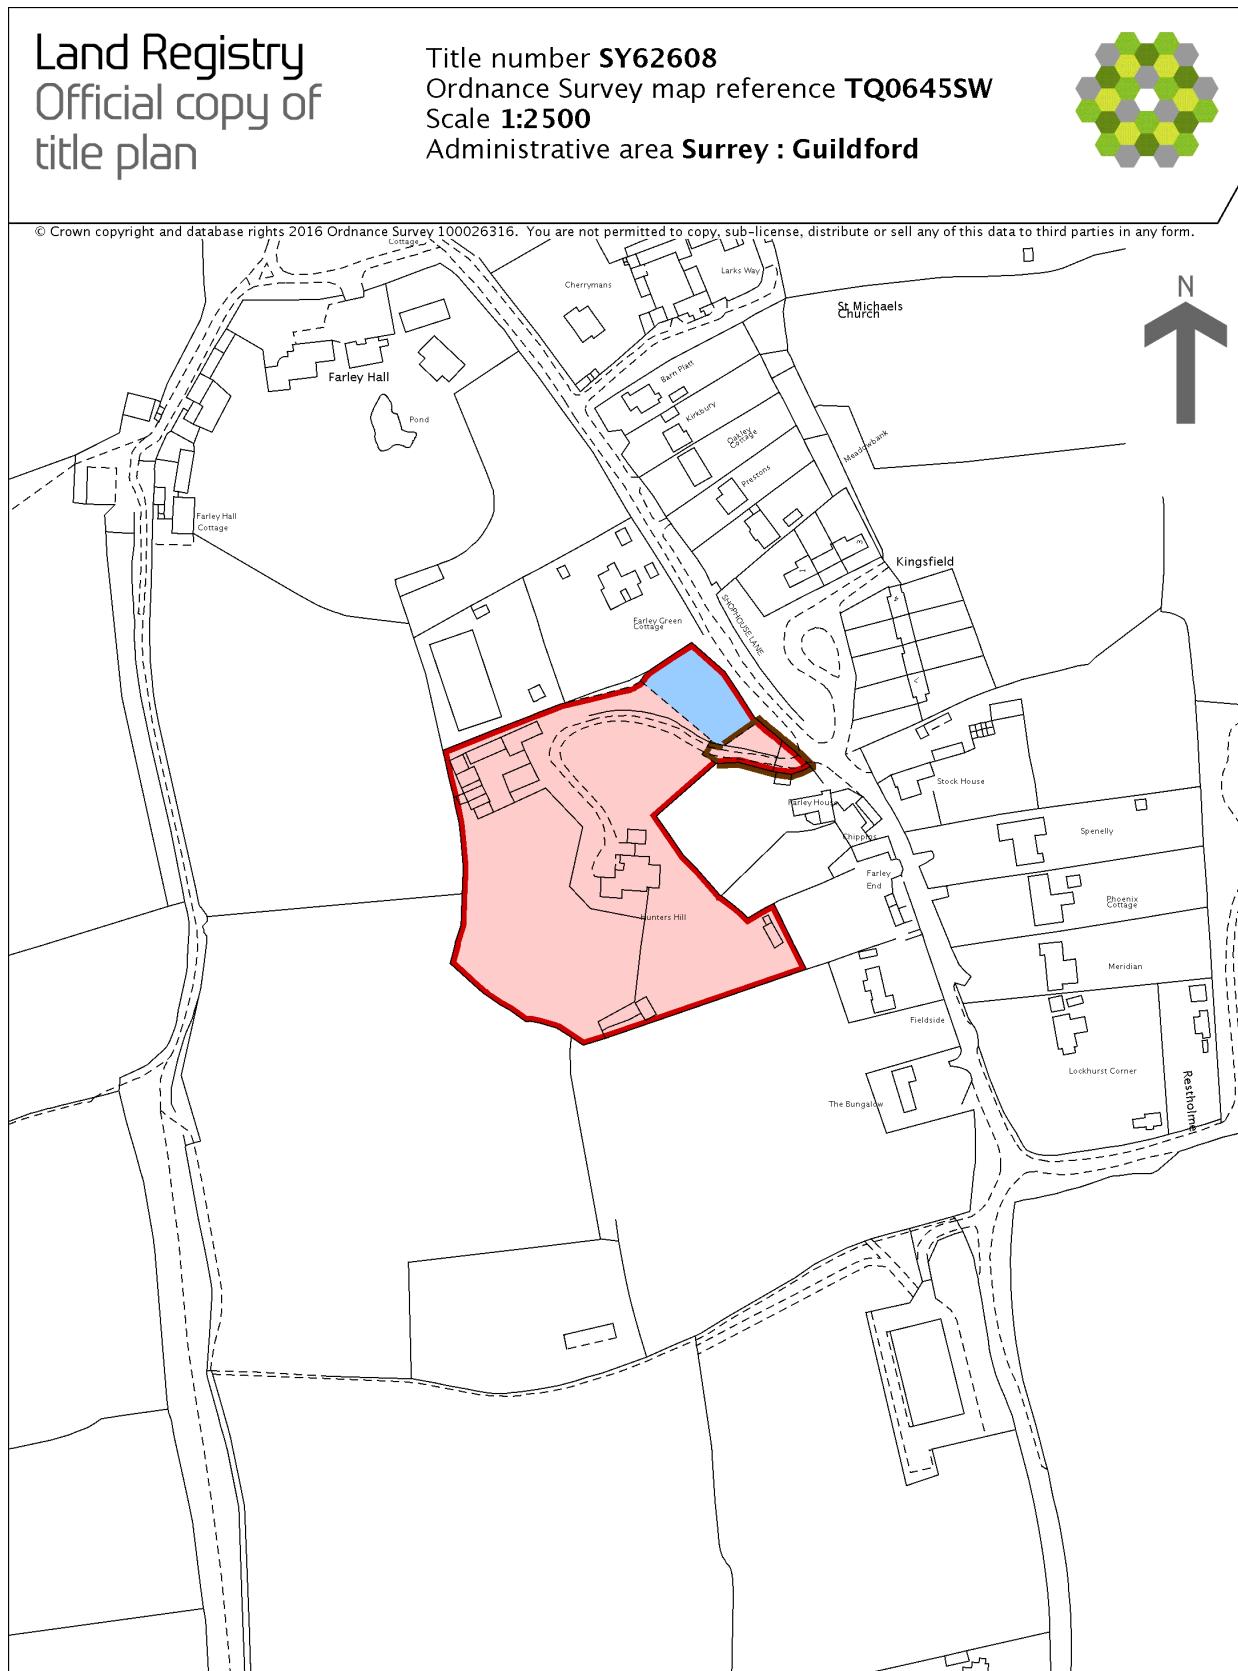

As these will be additional dwellings new addresses will be required for each plot.

## **Historic Connection**

It is the policy of Guildford Council that any new addresses have a demonstrable historical connection to the site or nearby area. We have therefore researched through the archive of deeds available for the property that date back to 1925. The following extracts highlight the site and past names.
